M20 X JEWEL

IN-STORE SOLUTION FOR RINGS AND BRACELETS

COMPACT

- Easy integration in small shops.
- Lightweight and portable.

CLEAN & SILENT

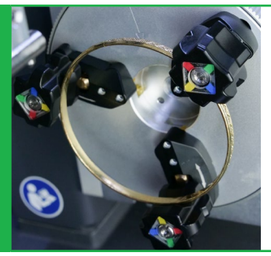

- Diamond engraving, clean and precise.
- Little to no dust or metal shavings.
- No rotating spindle so no noise.

EASY

- Completely enclosed : safe and maintenance free.
- No technical knowledge required.
- Simple jewelry positioning.

L x W x H: 368 x 350 x 363 mm
14.5 x 13.8 x 14.3”

17 kg
37.478 lbs

INNOVATIVE MULTI-PROFILE JAWS

This device contains 3 jaws for internal and external engraving for rings and bracelets.

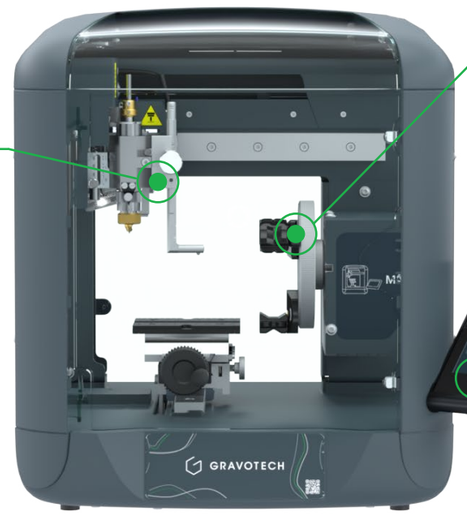

Choose between the 4 colors to match the diameter and shape of the object to engrave.

This unique Gravotech feature simplifies operation and your daily work.

BEST SELLING ROTARY ENGRAVING STATION

RELIABLE

- Spindle rotation speed management to suit different materials.
- Durable machine made to last decades.
- Cutting and engraving machine, all at once.

VERSATILE

- Rotary devices for rings, cups and pens.
- Engrave and cut on all materials.
- Many accessories available: jigs, chip collector, tablet, cutters, Dedicace™, etc.

EASY-TO-USE

- Step-by-step engraving process.
- Engraving queue management.

L x W x H: 368 x 350 x 363 mm
14.5 x 13.8 x 14.3”
(without screen)

19.5 kg
42.990 lbs

DEEP ENGRAVING ON RINGS

This accessory adapts to ring diameters from 12 to 24 mm (0.47” to 0.94”). It is designed to hold rings firmly in place and support the pressure created by deep engraving.

Deep marking and repeat engraving passes are very clean and precise even on the hardest material.

WELASE™ LASER STATIONS LW2

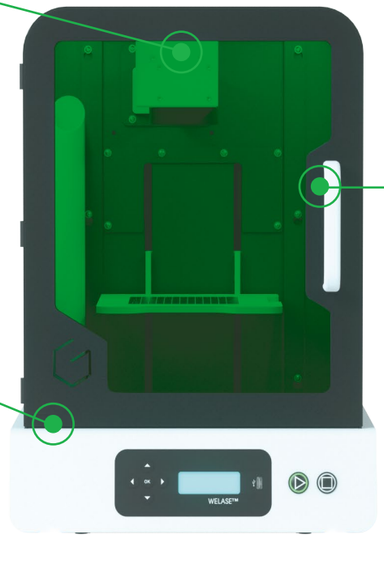

DISCOVER NEW POSSIBILITIES

FAST

- Engrave a name in less than a second.
- Same laser to mark and cut.
- Limited training required.

INTUITIVE

- No clamping needed.
- Easy settings and positioning.
- Compatible with every graphic/design software.

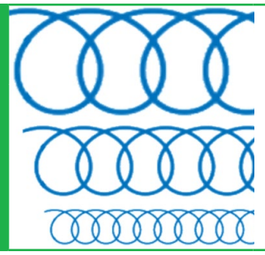

SLEEK DESIGN

- 3 large windows for a great customer experience.
- Elegant design to attract curiosity.
- Maximum security - Class 1, no safety glasses required.

L x W x H: 450 x 560 x 610 mm
18 x 22 x 24''

42 KG
92.6 lbs

FOCUS ON METAL CUTTING

Expand your creative possibilities with our wobbling cutting method.

This spiral cutting mode can modulate the focus of the laser beam to cut more efficiently, thinner, or thicker.

Available on WeLase™ and LW2

BOOST YOUR PRODUCTIVITY

SMART

- Same laser to mark and cut.
- Combined circular and flat marking.
- Compatible with every graphic/design software.

CONVENIENT

- Touch screen.
- Automated door.
- Programmable: no risk of errors.

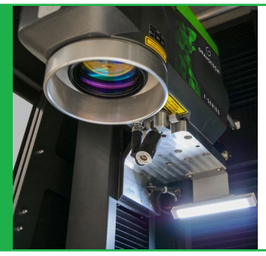

PRODUCTIVE

- Large working area: accommodates large objects and fixtures positioning multiple small items for production.
- Large marking area.
- Audible end of cycle alert.

L x W x H: 600 x 622 x 772 mm
23.6 x 24.5 x 30.3''

60 KG
132.3 lbs

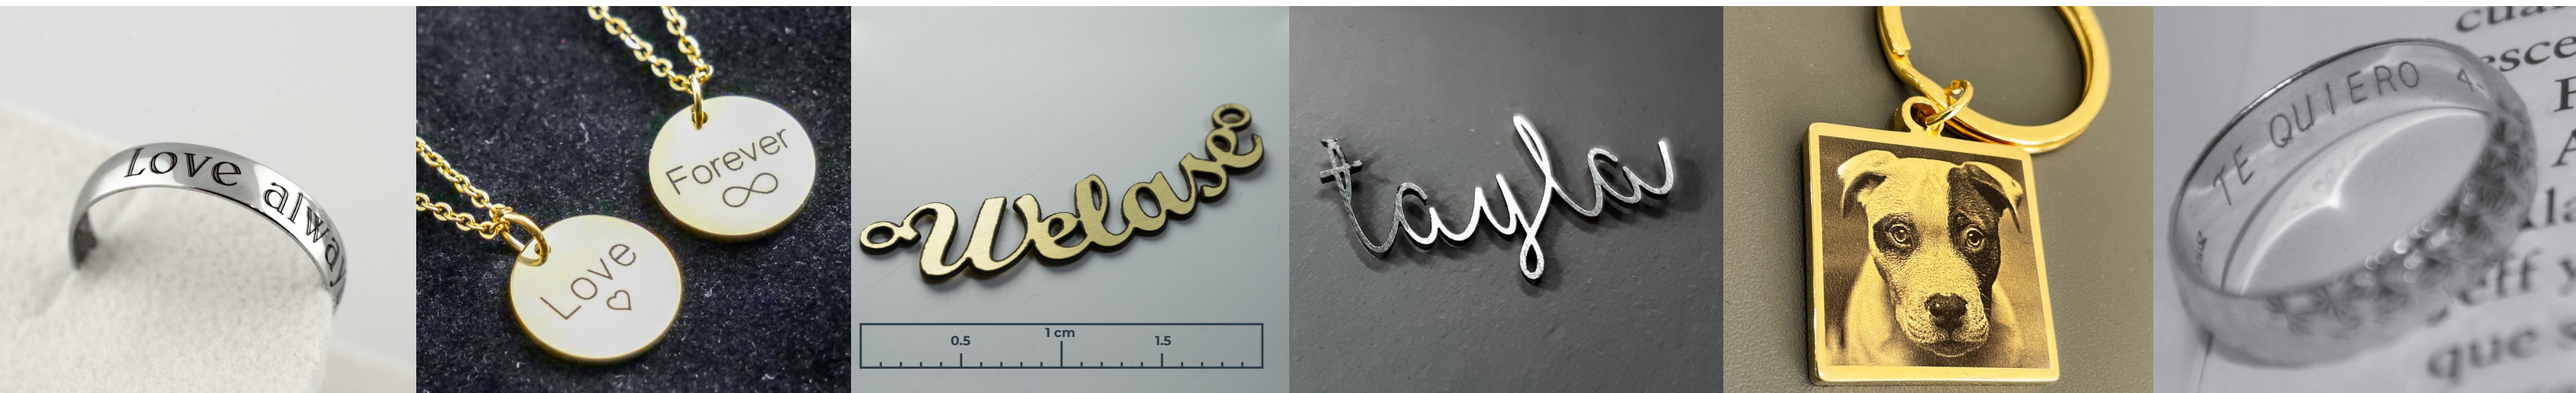

FOCUS ON LASER SOURCES

WeLase™ and LW2 are available with different laser sources, among which:

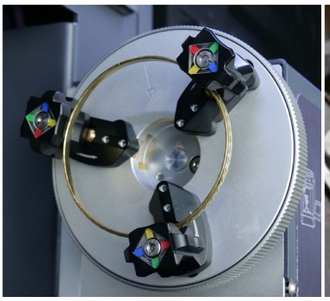

Fiber & MOPA: Power and versatility for surface marking, deep engraving and cutting.

Hybrid & Green: Fine engraving which creates little dust (less or no cleaning required) and requires no finishing or treatment after the engraving. The marking can appear in different rendering possibilities, from black to white.
